

Park Gate Primary School Curriculum

Park Gate Primary School have designed a rich, ambitious and enjoyable curriculum for all pupils.

To maximise opportunities for learning we have crafted a curriculum which includes both discrete subject teaching and project-led learning. Within our project-led learning, which is known as our Integrated Curriculum, subjects are taught within their own right, however, each project includes a hooks, rich experiences and learning outcomes and provides a vehicle for high quality, purposeful writing.

We see our curriculum as a journey from Year R through to Year 6 with an expectation that all our pupils will be successful and ready for the next step of the journey. The steps pupils take are carefully planned to make connections to previous learning and across subjects. Subject knowledge and skills are mapped both horizontally across each year and vertically across the Park Gate journey.

Subject Leaders direct the specific subject intent and are advocates for ensuring a high quality, challenging curriculum. Each Year Group team is directly involved in planning their Integrated Curriculum, proactively engaging with the Park Gate Subject Leaders to ensure all children access high quality and exciting learning.

You can find out more about our curriculum through looking at the Integrated Curriculum maps for each year group, visiting the 'Curriculinks' or viewing the information available through the Subject Information links.
